## EDUCATION

Ph.D. in Computer Science, *National University of Singapore*, Singapore 2019–Present  
 B.A. in Naval. Arch. & Ocean Eng., *Zhejiang University*, China 2015–2019

## SKILLS

### Responsible AI:

Familiar with (i) the technical methods for ensuring the social alignment of AI and (ii) the legal and policy aspects of AI regulation.

### Machine Learning (ML):

Experienced with (i) the ML pipeline in Python; (ii) with image, sensor, sequential, language, and FinTech data; and (iii) with vision, NLP, multimodal, and generative models.

### Statistics:

Big data analysis and structural modelling using the R and Python stack. Experienced with survival modelling, financial default analysis, and social network data analysis.

## EXPERIENCE

*Doctoral Researcher, N-CRiPT Centre*, NUS, Singapore 2019–Present

- (a) Conduct research in ML and FinTech: (i) guarantee fairness in downstream tasks via pre-trained fair representations, (ii) structural modeling of million online peer-to-peer lending transaction data to estimate default risk, profitability, and discrimination.
- (b) Communicated scientific insights to both academic and industry audience in 6 papers (2 first-authored, 3 published in leading journals and conferences) and 3+ talks.
- (c) Assisted teaching the course *Computational Methods for Business Analytics* twice, totally 150+ hours to 200+ undergraduate students. Prepared weekly recap materials, videos, and Q&A sessions.
- (d) Actively contributed (60+ commits) to community-driven projects in NLP, including [BIG-Bench](#), [BigScience](#), and [NL-Augmenter](#), and [LLM's Inverse Scaling](#).
- (e) Worked on responsible AI through (i) the Algorithms, Law, and Policy working group at [MD4SG](#) and (ii) facilitating the Responsible, Regutable AI working group at NUS.

*Research Intern, Sea AI Lab*, Sea Limited, Singapore Nov. 2022–Sep. 2023

- (a) Worked on finetuning diffusion-based image generation models for fairness, driving collaboration with 5 researchers from 2 institutes (NUS & Sea AI Lab).

*Undergrad. Researcher, Second Institute of Oceanography*, China Jul. 2017–Jul. 2019

- (a) Worked on the full stack of satellite remote sensing image segmentation using Python & Matlab, incl. data preprocessing, labeling, neural net training and validating.

*Undergrad. Researcher, Waseda University*, Japan Sep. 2018–Feb. 2019

- (a) Analyzed the effectiveness of Japan's policy toward the elimination of Persistent Organic Pollutants (POPs), and proposed policy recommendations to China.

*Undergrad. Researcher, York University*, Canada May–Aug. 2018

- (a) Worked on fluid dynamics simulation of a hydrodynamically focused printing process for printed electronics, using COMSOL and FLUENT, in collaboration with 5 other researchers.

## WORKING PAPERS & PREPRINTS

1. Xudong Shen, Hannah Brown, Jiashu Tao, Martin Strobel, Yao Tong, Akshay Narayan, Harold Soh, Finale Doshi-Velez, "Towards Regulatable AI Systems: Technical Gaps and Policy Opportunities", arXiv:2306.12609, (2023).

2. Xudong Shen, Chao Du, Tianyu Pang, Min Lin, Yongkang Wong, Mohan Kankanhalli, “Finetuning Text-to-Image Diffusion Models for Fairness”, under review for ICLR 2023.
3. Xudong Shen, Tianhui Tan, Tuan Q. Phan, Jussi Keppo, “Improved Identification of Gender Discrimination Drivers in Online P2P Lending”, working paper.

INVITED TALKS	Workshop on Enormous Language Models, <i>ICLR 2021</i> , Online	2021
	N-CRiPT Seminar, <i>National University of Singapore</i> , Singapore	2022
	<i>International Conference on Smart Finance 2022</i> , Online (Hong Kong)	2022
SERVICE	<i>Reviewer</i> : EMNLP 2022, ICLR 2023, WACV 2023, ACL 2023. <i>Area Chair</i> : NeurIPS 2023 Regulatable ML Workshop.	
ADDITIONAL TRAINING	Master Kong Dream Scholarship Program, <i>Waseda University</i> , Japan	Sep. 2018-Feb. 2019
	Globalink Research Internship, <i>York University</i> , Canada	May.-Aug. 2018
	Erasmus+ Student Mobility, <i>Università di Trento</i> , Italy	Feb.-Jun. 2017
